

**Good Day Utah Wing -----**

**A reminder to ensure your squadron members are completing the OPSEC training. Apparently CAP National is not processing membership renewals unless the members OPSEC is complete, including CADETS. Also take a look at your members who have turned 18, they need to also complete CPPT. We recently had a cadet who passed the Spaatz and was not awarded it until CPPT was completed. It sometimes seems like an endless process but I assure you, the payoff is sweet.**

**The Utah Wing for the first time ever completed all of our Safety Surveys on time; CAP National called me personally to congratulate the Utah Wing. I'm guessing here, but I suspect we were but just a hand full of Wings to complete the Surveys on time. I pass the pat on the back from our National Commander, Maj Gen Courter for your timely attention to the Surveys.**

**I also will say, Thanks for the large amount of members completing the ICS courses, 100, 200, 300, 700 and 800. We are well ahead of our timetables to have the entire Wing Mission ready with the NIMS qualifications. Most of the courses can be accessed on line and are painless. If you haven't taken the NIMS/FEMA courses yet please do.**

**Our Wing Chaplain, Major Fred Pingle has brought to my attention the fact that if any of our current members experience a tragedy we are prepared to respond, and respond well, but what about the members who have contributed to CAP for many years and just fade away---- then something happens. I will be asking for volunteers to work with Chaplain Pingle to put in place a plan to accommodate all of our members, past and present.**

**Wing Conference: March 14, Utah Valley University. Please Contact DeV Vaughn Simper for details, [devaughn.simper@gmail.com]  
or check the Utah Wing Web Page <http://www.cap.utah.gov/>  
This will most likely be my last Utah Wing Conference as the Commander.**

**Robert Bost, Col, CAP  
Utah Wing Commander**
